

## CALL FOR PAPERS – DPM 2010

# Fifth International Workshop on Data Privacy Management

Athens, Greece, September 23.

### Program Committee Chairs:

Joaquin Garcia-Alfaro (TELECOM Bretagne)  
Guillermo Navarro-Arribas (IIIA-CSIC)

### General Chairs:

Frederic Cuppens (TELECOM Bretagne)  
Nora Cuppens-Boulahia (TELECOM Bretagne)

### Program Committee:

Alessandro Acquisti (Carnegie Mellon University)  
Mohd Anwar (University of Calgary)  
Michel Barbeau (Carleton University)  
Elisa Bertino (Purdue University)  
Marina Blanton (University of Notre Dame)  
Nikita Borisov (University of Illinois)  
Joan Borrell (Autonomous University of Barcelona)  
Milan Bradonjic (Los Alamos National Laboratory)  
Jordi Cabot (AtlanMod, INRIA)  
Iliano Cervesato (Carnegie Mellon University)  
Valentina Ciriani (University of Milan)  
Frederic Cuppens (TELECOM Bretagne)  
Nora Cuppens-Boulahia (TELECOM Bretagne)  
Ernesto Damiani (University of Milan)  
Josep Domingo-Ferrer (Rovira i Virgili University)  
David Evans (University of Cambridge)  
Simon Foley (University College Cork)  
Philip W. L. Fong (University of Calgary)  
Joaquin Garcia-Alfaro (TELECOM Bretagne)  
Stefanos Gritzalis (University of the Aegean)  
Jordi Herrera (Autonomous University of Barcelona)  
Wei Jiang (Missouri University)  
Evangelos Kranakis (Carleton University)  
Javier Lopez (University of Malaga)  
Fabio Massacci (Universita di Trento)  
Guillermo Navarro-Arribas (IIIA-CSIC)  
Andreas Pashalidis (K.U.Leuven)  
Tomas Sander (Hewlett-Packard Labs)  
Thierry Sans (Carnegie Mellon, Doha)  
Vicenc Torra (IIIA-CSIC)  
Nicola Zannone (Eindhoven University of Technology)

### Important Dates:

Intention of submission:  
ASAP. Send an e-mail to [dpm@iiaa.csic.es](mailto:dpm@iiaa.csic.es)  
Paper submission: June 28, 2010  
Notification: July 20, 2010  
Camera-ready: August 15, 2010

### Additional Information:

Workshop Website: <http://dpm2010.dyndns.org>  
Contact E-mail: [dpm@iiaa.csic.es](mailto:dpm@iiaa.csic.es)

**Scope:** Organizations are increasingly concerned about the privacy of information that they manage (several people have filed lawsuits against organizations violating the privacy of customer's data). Thus, the management of privacy-sensitive information is very critical and important for every organization. This poses several challenging problems, such as how to translate the high-level business goals into system-level privacy policies, administration of privacy-sensitive data, privacy data integration and engineering, privacy access control mechanisms, information-oriented security, and query execution on privacy-sensitive data for partial answers.

**Topics:** The aim of this workshop is to discuss and exchange the ideas related to privacy data management. We invite papers from researchers and practitioners working in privacy, security, trustworthy data systems and related areas to submit their original papers in this workshop. The main topics, but not limited to, include:

- o Privacy Information Administration
- o Privacy Policy-based Infrastructures and Architectures
- o Privacy-oriented Access Control Language
- o Privacy in Trust Management
- o Privacy Data Integration
- o Privacy Risk Assessment and Assurance
- o Privacy Services
- o Privacy Policy Analysis
- o Query Execution over Privacy Sensitive Data
- o Privacy Preserving Data Mining
- o Hippocratic and Water-marking Databases
- o Privacy for Integrity-based Computing
- o Privacy Monitoring and Auditing
- o Privacy in Social Networks
- o Privacy in Ambient Intelligence (AmI) Applications
- o Privacy in computer networks
- o Privacy and RFIDs
- o Privacy in Sensor Networks

### Submissions Guidelines:

Papers should be up to 15 pages in English, including bibliography and well-marked appendices. At least one author of each accepted paper is required to register with the workshop and present the paper. Proceedings will be published by Springer-Verlag in the Lecture Notes in Computer Science (LNCS) series.

We strongly recommend submitting an abstract (1-2 pages) in order to enable the Program Chairs to give a first feedback.

All the contributions will be subject to a peer-review by at least three referees from the Program Committee. The submitted contribution should be formatted according to Springer's LNCS style.

It is expected that extended and revised version of the best papers from the workshop will be considered for international journal special issues.
