

**Program Committee Chairs:**

Cristina Perez-Sola

(Universitat Oberta de Catalunya)

Guillermo Navarro-Arribas

(Universitat Autònoma de Barcelona)

**Program Committee:**

Jordi Casas-Roma (Universitat Oberta de Catalunya)

Jordi Castellà-Roca (Universitat Rovira i Virgili)

Mauro Conti (University of Padua)

Frédéric Cuppens (Telecom Bretagne)

Nora Cuppens-Bouahia (IMT Atlantique)

Sabrina De Capitani di Vimercati (University of Milan)

Josep Domingo-Ferrer (Universitat Rovira i Virgili)

Christian Duncan (Quinnipiac University)

José M. De Fuentes (Universidad Carlos III de Madrid)

Sebastien Gams (Université du Québec à Montréal)

Joaquin Garcia-Alfaro (Telecom SudParis)

Marit Hansen (ULD)

Jordi Herrera-Joancomartí (U. Autònoma de Barcelona)

Marc Juarez (KU Leuven)

Christos Kallioniatis (University of the Aegean)

Florian Kammüller (Middlesex University London)

Sokratis Katsikas (NTNU)

Hiroaki Kikuchi (Meiji University)

Evangelos Kranakis (Carleton University)

Alptekin Kıpçü (Koç University)

Costas Lambrinouidakis (University of Piraeus)

Maryline Laurent (Institut Mines-Telecom)

Giovanni Livraga (University of Milan)

Brad Malin (Vanderbilt University)

Fabio Martinelli (IIT-CNR)

Chris Mitchell (Royal Holloway, University of London)

Anna Monreale (University of Pisa)

Jordi Nin (BBVA Data & Analytics)

Melek Önen (EURECOM)

Javier Parra-Arnau (Universitat Rovira i Virgili)

Silvio Ranise (FBK, Security and Trust Unit)

Kai Rannenberg (Goethe University Frankfurt)

Ruben Rios (University of Malaga)

Pierangela Samarati (University of Milan)

David Sanchez (University Rovira i Virgili)

Claudio Soriente (NEC Laboratories Europe)

Iraklis Symeonidis (SnT/APSIA)

Vicenç Torra (Maynooth University)

Yasuyuki Tsukada (Kanto Gakuin University)

Alexandre Viejo (Universitat Rovira i Virgili)

Isabel Wagner (De Montfort University)

Lena Wiese (Georg-August Universität Göttingen)

Nicola Zannone (Eindhoven University of Technology)

**Web:** <http://deic.uab.cat/conferences/dpm/dpm2019/>

**Important Dates:**

- Deadline: **June 30, 2019**
- Notification: **July 25, 2019**
- Camera Ready: **August 6, 2019**

**Venue:** The workshop will be held in Luxembourg, in conjunction with the 24th European Symposium on Research in Computer Security (ESORICS 2019).

**Scope:** Organizations are increasingly concerned about the privacy of information that they manage (several people have filed lawsuits against organizations violating the privacy of customer's data). Thus, the management of privacy-sensitive information is very critical and important for every organization. This poses several challenging problems, such as how to translate the high-level business goals into system-level privacy policies, administration of privacy-sensitive data, privacy data integration and engineering, privacy access control mechanisms, information-oriented security, and query execution on privacy-sensitive data for partial answers.

**Topics:** The aim of this workshop is to discuss and exchange the ideas related to privacy data management. We invite papers from researchers and practitioners working in privacy, security, trustworthy data systems and related areas to submit their original papers in this workshop. The main topics, but not limited to, include:

- Privacy Information Management
- Privacy Policy-based Infrastructures and Architectures
- Privacy-oriented Access Control Languages and Models
- Privacy in Trust Management
- Privacy in Cryptocurrencies
- Privacy Data Integration
- Privacy Risk Assessment and Assurance
- Privacy Services
- Privacy Policy Analysis
- Data Protection Regulations in Practice
- Cryptographic Protocols for Privacy
- Query Execution over Privacy Sensitive Data
- Privacy Preserving Data Mining
- Privacy for Integrity-based Computing
- Privacy Monitoring and Auditing
- Privacy in Social Networks
- Privacy in Ambient Intelligence (AmI) Applications
- Individual Privacy vs. Corporate/National Security
- Privacy in computer networks
- Privacy and RFIDs
- Privacy and Big Data
- Privacy in sensor networks
- Privacy in the Internet of Things

**Submissions Guidelines:** Full papers should be at most 16 pages (using 11-point font), including the bibliography. Position papers, as well as short papers, should be at most 8 pages (using 11-point font), including the bibliography. Program Committee members are not required to read the appendices, so the paper should be intelligible without them. All submissions must be written in English. Papers must be submitted electronically via easychair. Each submitted paper will be refereed. At least one author of each accepted paper should participate to the event to present it. The paper selection will be based upon the relevance of the paper to the main topics, on its originality, on its soundness, on its scientific quality and on the potential to stimulate discussion during the event.

**Publication:** Proceedings will be published by Springer-Verlag in the Lecture Notes in Computer Science (LNCS) series. At least one author of each accepted paper is required to register with the workshop and present the paper.
